You Are My Sunshine

You are my sunshine
My only sunshine
You make me happy
When skies are gray
You'll never know, dear
How much I love you
Please don't take
My sunshine away

Song Lyrics

Sarah's Song

Let's go out and not waste time
Let's go up to the mountains
Up to the mountains up up up
Chasing ducks run run run

Let's go out and not waste time
Let's go up to the village
Up to village up up up
Picking apples yum yum yum

Princess Sarah, Mama, Papa
Hiking to the cedars
Princess Sarah Mama Papa
There is nothing sweeter

Sean's Song

Someday you'll grow older than your parents have a lifetime of adventures and happy moments but now while you're finding your way just know I'll be with you through the night and every day

and when the day comes that I won't be,
This is what I'd say to you

sometimes you don't have to be strong, it's okay to cry feel those feelings deep inside, you don't have to hide just take a deep breathe no matter the reason, you just have to keep trying,

now even when I won't be near,
you'll always have a guide

Always

Oh, my babies, sweet baby buddies
don't you know that you're the best thing
I ever did?

Oh, my babies, sweet baby buddies
did you know that I love you so?
This world can be hard sometimes
I hope you color outside the lines
so you create the joy when it's hard to find
My greatest hope for you
is that you're kind, gentle, and true
and that you never leave your light behind

The sun will rise and the rain will fall
We'll hold each other through it all
and never let anyone make you feel small
I want you hopeful, happy, and free
to explore your curiosity
and question everything, even me

You will always have each other
You can always turn to your brother
You came into this world together
so I hope you always remember
that no matter how near or far you roam
you can always come back home

And I am so, so proud to watch you grow

Stella, the Guiding Star

Stella Rose Kama. Come on Mama.
Let's show the world who we are

Let's move let's dance Let's scream and shout
You are the future and the future is female

There is no limit to what you'll attain
Take a deep breath and push through the pain
A rainbow shines its light from inside
Take a leap with your heart as a guide

Use your voice, you have a choice. Though fear
may remain you have so much to gain.
You are the future and the future is female

Stella Rose Kama. Come on, Mama. You're our
guiding star You're a well of female power.
Let's show the world who we are

We chose you, mama you will see The path we
all have traveled Led by hope no guarantee
Our story still unravels

Your grandmothers show the way, escaping pain,
blessed by faith. Pursuing pleasure, choosing
love Common bridges held with strength

Jordan and Isaac love you so, and Shiloh shares
your treats. Mom and dad they watch you grow
With your heart in toe

A miracle of community And family brought
together To hold you close and keep you safe
Two tribes united forever

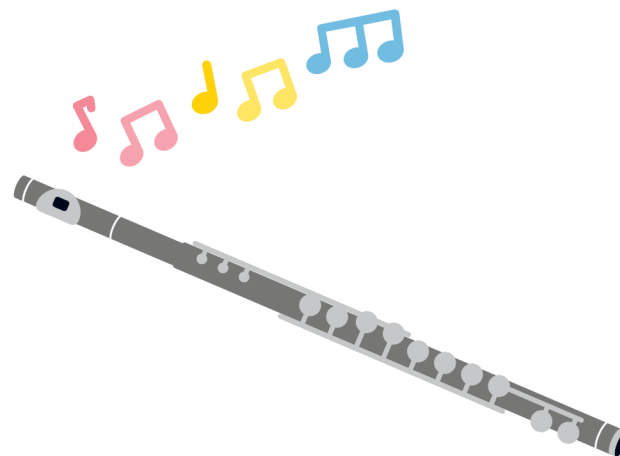

Hey Flute

"Hey Flute"

Hey flute, let's sing a song
You've been with me for so long
We've played and played, since a young age
Making music of all kinds, every day

When I start to feel upset
I just think back to when we met

Hey flute, let's sing a song
You've been with me for so long
We've played and played, since a young age
Making music of all kinds, every day

Lullaby for Martha

Way ahead's full of wonders And mysteries
and hopes Way ahead is your world
You create on your own

With each step you will search what is dear
to you. With each step, you'll unravel the
meaning of the true

If one day it goes wrong You're broken and
lone Close your eyes you will always find
home

Through your tears and pain Through your
fears in vain I will cuddle you in my warmth

Splash of sunshine Water breezes Gusts of
winds And bursts of cold

Set your fire Power glory Let your life be
a dance of joy

Way ahead's full of tempests And sparkles
and storms Way ahead is your life
You create on your own

Way ahead's full of wonders and mysteries
and hopes. Way ahead is your world
You dream up on your own

Brighter

You dream of a day
Where everything's in place,
where you can just be happy,
Where troubles all erase.

You look at other's lives,
And think they have it all,
But you don't see their battles,
Or the moments they may fall.

Their grass is always greener, their sky is
always bluer, Their Silver lining's brighter
where you are. But don't get too caught up
in how you see others
'cuz your life too looks better from afar

We all have our paths,
our journeys don't compare
Ups and downs make us stronger,
help us find our way out there

Don't focus on what's wrong,
Or what you can't control,
live your life in the present,
let your own story unfold.
